

Balancers

The strength behind Ingersoll Rand ergonomic handling

Ingersoll Rand offers:

- ▶ Pneumatic balancers
- ▶ IntelLIFT® intelligent assist devices
- ▶ Mechanical spring balancers

Zimmerman Series Pneumatic Balancers

The Ingersoll Rand Pneumatic Balancer **ADVANTAGE**

- ▶ **Precise, strain-free positioning** — Float leaves both hands free to raise, lower, or shift the load with virtually no resistance; no more “hoist control” hit-and-miss spotting
- ▶ **Simple adjustment** — Clear access to air-flow calibration controls allows quick, easy adjustment of the float
- ▶ **Rugged reliability** — For continuous duty with minimal maintenance

PLUS:

- ▶ **Low air consumption** — Approximately 1/8 cfm required per cycle (one fiftieth of that of an air hoist) means very low energy costs
- ▶ **Clean, oil-free operation** — Pre-lubricated design eliminates air line lubrication and oil mist exhaust; ideal for food processing and clean manufacturing environments

Progress is greener with Ingersoll Rand

Z Stop: The optional Z Stop is a patented device that will eliminate the down-drift of suspended loads or tools during shut down or at night when the air supply is shut off. The Z Stop will stop drift within 6 inches (152.4 mm) and put the Balance Air into a mechanically locked position preventing damage to tools or objects below the suspended load. Available for use on all 10 inch (254 mm) diameter units.

Z Brake Safety Retraction System (Patent No. 5,522,581):

Standard on all units, prevents violent retraction in the event of a sudden release or loss of load. The brake will also eliminate excessive upward acceleration of a no load hook when the “up” button is pressed in fully.

Suspension lugs: Fits all Ingersoll Rand suspensions and most trolleys from other manufacturers.

Rugged steel housing: All steel housing for added durability

Injection-molded reel: Engineered plastic for excellent durability and wear resistance.

Anti-friction ball screw: Creates smooth rotation path for the cable reel.

Heavy-duty thrust bearing: Absorbs piston force and transfers smooth reel rotation over the ball screw.

Low-friction cable guide (not shown): Ensures smooth cable feed on and off the reel.

Air chamber and piston: Forms the heart of the unit. Air entering the chamber pushes the piston to rotate the spool, wind the cable, and lift the load. Exhausting air lowers the load. Regulating this flow balances the load, creating a zero gravity float.

Safety is standard

- ▶ Built-in overload protection — The lifted load can never exceed the unit's maximum rated capacity
- ▶ Minimal cable recoil due to loss of load — If the load is accidentally lost, a centrifugal brake (Z brake) automatically stops rapid upward cable travel

Versatile configuration

- ▶ Wide range of capacities up to 2,000 lbs (907 kg)
- ▶ Added protection — The optional Z Stop offers protection against the drifting of loads in the event the main air supply is lost
- ▶ Cable travel — 40 to 120 inches (1016 to 3048 mm) depending on the model
- ▶ Controls — ZA (pendant) controls let you handle varying loads; a BA (single) balance control is ideal for a constant load, and an EA for 2 loads
- ▶ Mounting — Suspension kits for Ingersoll Rand and other enclosed track manufacturers as well as I-beam, patented track, and hook mount
- ▶ CE certification — Meets the requirements for the European community

Zimmerman Series Pneumatic Balancers

50 to 2,000 lb (22 to 909 kg) capacity

Control options:

B

Basic unit, without control

Features:

- ▶ Standard balancer features
- ▶ No control

Suitable for:

- ▶ Integration with end effector

ZA

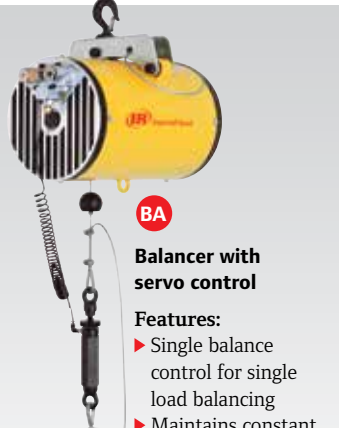

Balancer with pendant control

Features:

- ▶ Ergonomic up / down pendant control
- ▶ High speed precise positioning
- ▶ 12 ft (3.7 m) standard hose length

Suitable for:

- ▶ Pick and place
- ▶ Precision assembly

BA

Balancer with servo control

Features:

- ▶ Single balance control for single load balancing
- ▶ Maintains constant tension through full range of motion

Suitable for:

- ▶ Tool balancing
- ▶ Weld gun suspension
- ▶ Fixture suspension

EA

Balancer with high load, low load, no load control

Features:

- ▶ Load balancing for 3 loads (high, low, no load)
- ▶ Pendant with rotary thumb switch to select load
- ▶ 12 ft (3.7 m) standard hose length

Suitable for:

- ▶ Multiple load balancing
- ▶ End effector balancing (loaded/unloaded)

Selection Tips:

- ▶ Actual operating capacity is determined by available plant air pressure. Operating capacity decreases 1% for every 1 psi below 100 psi inlet air pressure. For example: at 50 psi, a 350 lb capacity balancer has a 175 lb operating capacity (350 X 50%)
- ▶ For lifting applications, working load should not exceed 80% of operating capacity
- ▶ Working load includes part weight and handling device weight

¹ Not available with Z-Stop safety device.

² Model delivered with Z-Stop as standard.

BAW series tool balancer

This air unit offers an incredible 2 to 50 pound (0.9 to 22 kg) load capacity and our exclusive flotation feature.

Standard features:

- ▶ **Performance** — Float action provides ease of vertical travel, eliminating tension on load, making positioning capability far superior
- ▶ **Versatility** — No need to change model when making tool change; one model (BAW005060) covers entire 50 lb (22 kg) range
- ▶ **Headroom** — Requires only 20 inches (508 mm) from bottom of rail to bottom of hook
- ▶ **Adjustment** — Simple adjustment in seconds by means of external regulator
- ▶ **Sequencing** — Can be sequenced via air signal to perform timed or "stepped" operation
- ▶ **Maintenance** — Virtually maintenance-free. Normal maintenance can be done in place on the rail

Zimmerman InteLIFT® Series Balancers

Intelligent Lifting Systems

What is InteLIFT?

InteLIFT is an intelligent assist device (IAD); it converts intuitive operator input into smooth, effortless up / down motion. The force-sensing control handle responds to operator input quickly and seamlessly for precise positioning of loads.

The Ingersoll Rand InteLIFT Balancer **ADVANTAGE**

- ▶ **Self-balancing** — Intuitive speed control for different weights
- ▶ **Hands-on maneuvering** — InteLIFT senses force input of the user and translates that to assisted lifting / lowering of the load without the need for up / down buttons
- ▶ **Float mode** — Throughout entire range of motion
- ▶ **Robust design** — Electric over air design allows continuous duty with minimal maintenance
- ▶ **Part present** — Eliminates potential to accidentally drop part
- ▶ **3-Speed select** — Enables speed selection to match application and operator comfort level

Same green features as the Pneumatic Balancer

- ▶ Low air consumption
- ▶ Clean, oil-free operation

Progress is greener with Ingersoll Rand

Integrated InteLIFT control module:

- ▶ Integral element of the balancer itself
- ▶ Simple programming of functions with a keypad and indicator lights
- ▶ Easy-to-read display window

Ergonomic control handle:

Integrated solutions

A complete range of end effectors can be used with IntelIFT controls for greater efficiency, from the simplest to the most complex device. The IntelIFT unit incorporates a fully grounded, fault-protected electrical system, with fused circuits and memory that automatically reinstates function selections following a power interruption. In every respect, the Ingersoll Rand IntelIFT air balancer is an essential solution for a more productive workplace; empowering individuals to work comfortably and effectively, significantly contributing to product and process quality.

The closed-loop feedback system delivers precise, responsive motion control suitable for a wide range of applications in:

Vehicle assembly

General industry

Beverage and warehouse

Biotechnology

Electronics

Aerospace

The engine-handling device shown uses the unique features of the IntelIFT balancer. Features include: auto clamp, interlock, up control disable, weight sensing with automatic alarm, and keyed lockout.

Error-proof assembly:

The device digitally displays the weight of the part picked up. Device will not allow the operator to move the part if not clamped properly. The key allows the operator the ability to lock the device. Allows 100 percent visual inspection of the assembly.

The warehouse-handling device shown is known for its versatility. The device mimics the human motion of picking up a part and placing it down. The same device can be used to pick up parts such as totes, trays, boxes, and milk crates. The self-balance feature allows the same device to pick up parts of different weights and sizes. Order P/N 16010209 in conjunction with IBW015080 IntelIFT balancer.

Spring Balancers

The Ingersoll Rand Spring Balancer **ADVANTAGE**

- ▶ 50 models from which to choose
- ▶ Five different series to meet all balancing requirements
- ▶ Lifts ranging from 5 to 9 feet
- ▶ Covers weight-balancing needs from 1 to 363 pounds
- ▶ “Gravity-free” effect on intermediate, heavy, and super-duty models allows user to move tool with minimal effort
- ▶ Made of rugged die-cast aluminum
- ▶ Safety locking device on medium, heavy, and super-duty models prevents dropping of the tool should the spring fail
- ▶ Easy-to-use controls allow for accurate spring adjustment

Medium-duty balancers

BHD-35

BHD Series

Part Number	Capacity lb (kg)	Weight of Balancer lb (kg)	Lift ft (mm)
HEAVY-DUTY BALANCERS — 22 – 143 LB CAPACITY			
BHD-15	22 – 33 (10 – 15)	22.7 (10.3)	6.5 (2000)
BHD-20	33 – 44 (15 – 20)	23.4 (10.6)	6.5 (2000)
BHD-25	44 – 55 (20 – 25)	24.7 (11.2)	6.5 (2000)
BHD-30	55 – 66 (25 – 30)	25.4 (11.5)	6.5 (2000)
BHD-35	66 – 77 (30 – 35)	26 (11.8)	6.5 (2000)
BHD-45	77 – 99 (35 – 45)	27.3 (12.4)	6.5 (2000)
BHD-55	99 – 121 (45 – 55)	27.6 (12.5)	6.5 (2000)
BHD-65	121 – 143 (55 – 65)	30 (13.6)	6.5 (2000)

- ▶ Safety device prevents load dropping due to spring breakage
- ▶ Upper suspension with rotary safety hook
- ▶ Precision guided cable winding prevents jamming
- ▶ Anti-friction cable guide
- ▶ Worm screw capacity adjustment
- ▶ Spring drum assembly
- ▶ Floor controlled locking device for instant manual clamping or release (BIL-7343)

Additional information

Additional information about Ingersoll Rand Spring Balancers can be found in our Balancers Brochure (IRPS-0407-007)

An online "Balancer Finder" tool to assist with balancer selection can be found at:

http://www.irtools.com/accessories/pgs/user_balancers.aspx

Spring Balancers

Super-duty balancers

BSD-20

Compatible trolleys

Part Number	Capacity lb (kg)	Weight of Balancer lb (kg)	Lift ft (mm)	Diagram
SUPER-DUTY BALANCERS — 33 – 363 LB CAPACITY				
BSD-20	33 – 44 (15 – 20)	41.9 (19)	8.2 (2500)	A
BSD-30	44 – 66 (20 – 30)	43.7 (19.8)	8.2 (2500)	A
BSD-40	66 – 88 (30 – 40)	45.9 (20.8)	8.2 (2500)	A
BSD-50	88 – 110 (40 – 50)	52.7 (23.9)	8.2 (2500)	A
BSD-60	110 – 132 (50 – 60)	56 (25.4)	8.2 (2500)	A
BSD-70	132 – 154 (60 – 70)	59.1 (26.8)	8.2 (2500)	B
BSD-80	154 – 176 (70 – 80)	61.3 (27.8)	8.2 (2500)	B
BSD-90	176 – 198 (80 – 90)	63.5 (28.8)	8.2 (2500)	B
BSD-100	198 – 220 (90 – 100)	78.5 (35.6)	8.2 (2500)	C
BSD-120	220 – 265 (100 – 120)	85.3 (38.7)	8.2 (2500)	C
BSD-140	265 – 309 (120 – 140)	92.2 (41.8)	8.2 (2500)	C
BSD-150	287 – 330 (130 – 150)	98.1 (44.5)	8.2 (2500)	C
BSD-165	330 – 363 (150 – 165)	106.3 (48.2)	8.2 (2500)	C
MEDIUM-DUTY LOCKING BALANCERS — 33 – 330 LB CAPACITY LONG CABLE				
BSDL-20	33 – 44 (15 – 20)	42.1 (19.1)	9.85 (3000)	A
BSDL-25	44 – 55 (20 – 25)	43.9 (19.9)	9.85 (3000)	A
BSDL-35	55 – 77 (25 – 35)	46.1 (20.9)	9.85 (3000)	A
BSDL-45	77 – 99 (35 – 45)	52.5 (23.8)	9.85 (3000)	B
BSDL-50	88 – 110 (40 – 50)	52.7 (23.9)	9.85 (3000)	B
BSDL-60	110 – 132 (50 – 60)	55.8 (25.3)	9.85 (3000)	B
BSDL-70	132 – 154 (60 – 70)	58.9 (26.7)	9.85 (3000)	B
BSDL-80	154 – 176 (70 – 80)	61.7 (28)	9.85 (3000)	B
BSDL-90	176 – 198 (80 – 90)	64 (29)	9.85 (3000)	B
BSDL-100	198 – 220 (90 – 100)	81.1 (36.8)	9.85 (3000)	C
BSDL-115	220 – 254 (100 – 115)	85.3 (38.7)	9.85 (3000)	C
BSDL-130	254 – 286 (115 – 130)	88 (39.9)	9.85 (3000)	C
BSDL-140	286 – 309 (130 – 140)	94.4 (42.8)	9.85 (3000)	C
BSDL-150	309 – 330 (140 – 150)	100.6 (45.6)	9.85 (3000)	C

Higher capacities available upon request.

- ▶ Safety device prevents load dropping
- ▶ Upper suspension with rotary safety hook
- ▶ Precision guided cable winding prevents jamming
- ▶ Anti-friction cable guide
- ▶ Worm screw capacity adjustment
- ▶ Alignable rotating upper hook
- ▶ Cable replacement without balancer disassembly
- ▶ Cable visible for inspection
- ▶ Floor controlled locking device for instant manual clamping or release (BIL-3224)
